

# General terms

## Team

The contest is open to primary school and high school students. Contestants have to form a team which consists of up to three students. Each team needs to be led by a coach (parent or teacher) or a leader (one of the team members). Every contestant shall compete only once in each category.

## Categories

- Custom project
- Robotic challenge
- Racing

In the category Custom project, teams are divided according to their school into two subcategories (primary school and high school) and do not compete with each other. All team members in the primary school category must come from a primary school. Teams with older students will compete in the high school category. Due to time and space constraints, each category has a limited number of competing teams.

The limits for the individual categories are:

- Custom project - 12 primary school and 12 high school teams
- Robotic challenge - 18 teams
- Racing - 70 teams

## Robot models

Each robot has to be unique. It is not permitted to share the same robot with other teams nor present the same robot in multiple categories. The jury may disqualify a team in such a case.

## Contest area

The contest takes place in classrooms of Gymázium, Alejová 1, Košice. Every team will be provided a working area with a table and chairs. Some extension cords will be provided by us, but we highly recommend to bring your own. The Internet connection will not be provided due to technical reasons. The racing track is located in the sports hall of Gymázium, Alejová 1. The surface of the racing track is wooden floor.

## Terms of the contest

Each team must fill in the registration form. The registration is done at the IT Academy website. The registration link can be found on our website. After successful registration, you will receive an email with the instructions.

By taking part in the contest you agree with being recorded on audio and video tracks. This audio-video material will be used solely for propagation purposes of RBA. For this purpose, you also give us your consent to use all the submitted digital documents.

The contest is free of charge. Some refreshment will be provided in the venue. Accommodation and lunch is at your own expenses. Further information will be available in May.

## Language of the contest

The contest takes place in Slovak and English language. Usage of other languages is possible upon an agreement.

## Organization of contest

The contest is organized by Gymázium, Alejová 1, Košice in a cooperation with Faculty of Sciences of Pavol Jozef Šafárik in Košice.

The contest is organised with a support of project "IT Akadémia – vzdelávanie pre 21. storočie".
